## MINERS ORDERED TO WALK OUT MARCH 31st

### HARDING MAY MAKE PUBLIC APPEAL TO AVERT COAL STRIKE

#### WILL CALL ON OPERATORS AND MINERS TO SETTLE THEIR DIFFERENCES

#### GOVERNMENT CANNOT INTERFERE UNTIL NATION IS IMPEILED

(By United Press.) Washington, March 22—A public appeal by President Harding to call operators and miners to settle their differences and avoid a nation-wide suspension of work April 1, may be made within a week.

It was learned authoritatively today that Harding is inclined toward such a move and as a final effort to draw the bituminous miners into a national peace conference and enhance the chances of settlement in all districts.

The president has consulted Attorney General Daugherty, it was learned, to find what steps he might take toward backing up the move he made in inviting the bituminous operators to a conference.

Daugherty told him, according to reliable information, that he knew of no legal steps that might be taken by any agent of the government toward settlement before the fuel supply of the nation is imperiled by the walkout.

The possibilities of a public appeal then arose. Some officials are understood to have opposed it on the ground it was useless since the situation had developed to such a stage that the walkout seemed unavoidable.

#### Strike Will be 100 Per Cent Effective.

New York, March 22—The great coal strike called for midnight March 31, will be 100 per cent effective, officials of the United Mine Workers of America declared here today.

Reports from the anthracite and bituminous fields throughout the United States indicated that virtually every one of the 600,000 miners will obey the order to suspend work.

President John L. Lewis of the United Mine Workers, who issued an order here yesterday, believes that there will be no rebel movement in the union ranks. He asserted that the 90,000 miners of Illinois would quit with the rest despite the fact that President Frank Warrington of the Illinois miners is quoted here as saying Lewis' action was premature.

The mine union officials are going ahead with plans for the great walkout just as if there were no possible chance of settlement in any mine district.

#### R. R. Brotherhoods Support Miners.

Cleveland, March 22—Possibility of the railroad brotherhoods, 2,500,000 strong, giving their support to the 600,000 mine workers order to strike March 31st, was seen today as Cleveland became the center of what may become the greatest mine strike in history. This possibility was revealed in a statement from brotherhood officials. The protective agreement between miners and the brotherhood will doubtless receive the sanction of the railroad organizations. The executive board of the union mine workers, it is said, already has ratified the agreement.

#### Strike Will be Orderly.

Indianapolis, March 22—The coal strike called for April 1 will come while the nation sleeps.

At mid-night March 31st, half a million members of the United Mine Workers and thousands of non-union men will declare an indefinite holiday.

Following orders of the union mailed out from headquarters, they will strike until mine owners agree with representatives in wage conferences.

Both anthracite and bituminous fields will be tied up. The Canadian miners will walk out too except in Nova Scotia where wage negotiations are in progress.

The strike will be orderly, William E. Greene, secretary of the United Mine Workers declared today. It will not be attended by violence.

"The present situation in the mining industry calls for the exercise of good judgment, moral courage and loyalty by every member of the union mine

workers of America," Greene said quoting some text of the order. "Orderly procedure must be followed at all times. There must be no violation of law, nor disturbance of the public peace."

Greene is here directing the count of the strike votes.

### School Boy Requires Intelligent Direction Not Suppression

(By United Press.) Minneapolis, March 22—It isn't wicked for school boys to fight. It is a natural impulse. A boy who runs away seeking adventure is not wicked. This was given educators here today by Doctor Frank Gruenberg, director of educational work of the U. S. public health service.

Punishment and suppression will do a spirited boy no good. He should have intelligent direction, he said. If the teacher will give the boy adventure in the class room, travel stories, and the like, he will not run away. If dime novels satisfy his taste for adventure, let him read them. If the dime novels are too vicious, give him 15-cent ones.

### WAR ON RUM SMUGGLERS WAGED ON FLORIDA COAST

#### FIVE SQUADRONS OF FEDERAL AGENTS RESUME RAIDING OPERATIONS

(By United Press.) Miami, Fla., March 22—War on rum smugglers and bootleggers raged unabated today on the battle front extending down the Atlantic seaboard from Charleston to Key West.

Five Florida squadrons composed of more than 40 picked federal agents sent to break up alleged gigantic liquor smuggling today, resumed raiding operations.

At least one airplane was known to be co-operating with land forces in this section. More than 25 arrests have been made.

### LAST EFFORT TO DEFEAT FOUR POWER PACT WILL BE MADE

(By United Press.) Washington, March 22—The last stand of the four-power treaty opponents in the senate is to be made on the Robinson amendment reservation which the senate recently rejected. Twenty-six democratic senators have agreed to join in another effort to incorporate the Robinson proposal in the resolution of ratification either as an amendment to the treaty or as a reservation. Four republican irreconcilables will join them.

Three more votes are being sought to bring the total to 33, enough to defeat ratification if the Robinson plan is not accepted by the treaty supporters.

### FIRE LOSSES IN MINNESOTA DECREASE IN JAN.Y.

(By United Press.) St. Paul, March 22—Fire losses in Minnesota decreased from \$738,389 in January 1921 to \$633,502 in January 1922, according to reports for January issued today by George Nettleton, state fire marshal.

Fire losses in St. Paul were \$5,000 less than last year.

Throughout the state there were 370 fires during the month and 232 the same month a year ago.

### SPORTS PROMOTER IS ON TRIAL FOR SERIOUS OFFENSE

(By United Press.) New York, March 22—Admission that she went repeatedly to "Tex" Rickard's office and permitted intimacies "because she wanted the money," was made under cross examination today by Sarah Schoenfeld, 15-year-old witness, against the sports promoter, charged with mistreating four little girls.

### PRICES ON CEMENT PAVING BREAK LOWEST RECORD

#### HIGHWAY COMMISSIONER BARCOCK APPROVES PAVING CONTRACT AWARD

(By United Press.) St. Paul, March 22—Big job prices on paving in Minnesota were broken today. Charles M. Babcock, state highway commissioner, approved the award of a contract for sixteen miles of concrete pavement on the state trunk line No. 27 between Royalton and Belle Prairie, north of Little Falls. This project will extend Minnesota's longest paved highway nearly 175 miles from Faribault through Minneapolis and St. Paul and north beyond Little Falls.

McCree, Moos & Company of St. Paul, who broke the world's record on the Elk River-St. Cloud paving project received the paving contract totalling approximately \$345,000.

Their bid of \$1.99 a yard for concrete paving with gravel aggregate was the lowest of seven proposals and the lowest big job price on record.

#### Partial Moratorium

Paris, March 22—The Temps this afternoon announced authoritatively that a partial moratorium has been granted Germany by the allied reparations commission.

A proviso in the allied note informs the German government it must contract internal and external ways to meet payments required for 1922.

### NORTHWEST NEWS

#### N. D. Nonpartisan League Convention Held Tomorrow

Fargo, N. D., March 22—The running gear of the national Nonpartisan league went into the shops today. Tomorrow it will be repaired or junked.

With delegates from every county in the state in town, the North Dakota convention of the league—hub of the national organization—will undertake a thorough polishing of the vehicle.

What develops tomorrow depends upon the ability of leaders in various factions. There are three distinct factions in the league. Here are the leaders:

A. C. Townley  
William Lemke  
A. A. Leiderback.

Townley is said to favor a plan whereby the league would refrain from running candidates, for more than two or three important offices, at least. He originally held out for a plan to remain completely out of political races and merely endorse candidates of other parties or independents, for offices. Recently, however, he modified that plan to the extent of suggesting that the league might have candidates for United States senator, governor and attorney general.

Lemke is opposed to the "balance of power" idea. He believes the league should continue to fill every possible office in the state, at least, and attempt to regain its lost power. Lemke, along with Governor Frazier and Commissioner Hagen was recalled from office last fall.

Liederback, chairman of the state executive committee, is reported to seek control of the state machinery. The state executive committee, he contends, should be empowered to handle the affairs of the league in this state without the interference of national headquarters or outsiders so long as the committee keeps within the bounds of the general policies of the league.

Liederback is reported to be at odds with both Townley and Lemke. People on the outside have heard but rumors of the alleged split and any of the leaders when approached always declare that there is no friction.

Results of the convention tomorrow will govern the activities of the league in the elections this year.

#### Ruth Will Bat Saints

St. Paul, March 22—St. Paul Association pitchers will try to shoot their slants past the huge bat of Babe Ruth this afternoon when the Saints meet the Yankees at Bogaluso, La. Elmer Miller, former star outfielder in St. Paul, will play against his team mates of last year.

### BOAT SIEZED AT NEW ORLEANS WITH \$30,000 WORTH OF BOOZE

(By United Press.) New Orleans, March 22—The World, a 50 ton lugger loaded with liquors said to be worth \$30,000 and manned by a skipper and crew of nine, all heavily armed, was seized by prohibition officials half a mile off the shore in Lake Pontchartrain, early today.

### ESCAPING GAS RESULTS IN DEATH IN MINNEAPOLIS

(By United Press.) Minneapolis, March 22—Escaping gas resulted in the death of one person and the probable serious injury of two others here last night.

Magnus Hillstrom was found dead in his room. A defective gas jet is believed to have caused his death.

Fred Jersey and Willis Carrigan were taken to the General hospital suffering from gas poison. Robert Hayward was taken to a hospital suffering from injuries received in a mysterious attack. He had not recovered consciousness sufficiently to explain his injuries.

### CLAIMS HE IS BEING DEPORTED ON ACCOUNT ROMANCE

(By United Press.) New York, March 22—Decision on the deportation of August Probst, former butler of the Rolling Rock Country club at Ligonier, Pa., who claims he is being railroaded out of the country because of his romance with a Pittsburgh society girl, is expected within a few days.

Federal Judge Knox today was considering evidence placed before him by Probst's attorneys and by immigration authorities that Probst is insane.

Virginia McKay, daughter of a wealthy Pittsburgh man, with immigration authorities, said Probst was insane.

Judge Knox refused to hear attorneys representing the Rolling Rock club.

### FIGHT DROPPED FOR REDUCTION OF JAP ARMY

(By United Press.) Tokio, March 22—The fight for a heavy reduction in the Japanese army has been abandoned until the summer session, leaders announced today. In the meantime, it was stated, small reductions in the army will be made in accordance with promises of army authorities.

### WHAT A COAL STRIKE WILL MEAN IN CUT PRODUCTION

Washington, March 22—Here is a table showing how many tons of coal the miners of the nation have turned from the ground in the last two years in each state.

### DEMOCRATS MAY OPPOSE GAG RULE TO PASS BONUS

#### ESTIMATED NOT OVER 75 VOTES WILL BE CAST AGAINST THE MEASURE

(By United Press.) Washington, March 22—Democratic congressmen were lining up today for a futile fight on the gag plan by means of which the soldier bonus will be passed by the house tomorrow.

They, with perhaps some republican anti-bonus supporters, will attack the rule, being framed this forenoon by the rules committee, under which the bonus measure will skim through the house with a big majority after four hours of debate.

Conservative estimates are that there will not be more than 75 votes against the bill.

The word is being passed around the house that President Harding almost certainly will not veto the present bill, in fact Chairman Fordney of the house ways and means committee, is quoted as saying substantially: "The president told the house that the present bill meets some of his objections."

As the situation now stands, the house members will be able to go forward in the fall campaigns and say to the voters: "We have passed the bonus for the soldiers. We are entitled to your votes."

If the measure is not perfected, it is only a question of time when it is finished in the upper body.

### YEGGS ROB BANK AT COTTAGE GROVE

(By United Press.) Madison, Wis., March 22—The bank of Cottage Grove, 12 miles from here, was entered last night. They locked the vault, jammed the combination and telephone and telegraph wires out of the little town were out off.

The Dane county sheriff and bank officials were endeavoring today to open the door melted by acetylene flame. Officials could not discover whether there was any money missing.

Winston Churchill, minister of colonies, announced in the house of commons this morning the situation in Ireland is growing steadily worse.

### PASSENGERS AND CREW OF SUNKEN STEAMER RESCUED

(By United Press.) El Paso, Texas, March 22—Rescued from death on the open Pacific with a school of man-eating sharks about their life boats, passengers and crew of the American steamer Fair Haven have been landed safely at Manganville by the steamer Christiania, according to meagre reports received here today.

The Fair Haven sank 200 miles off the coast, according to reports.

### GRAND OPERA SINGER MAKES COMIC OPERA ATTEMPT TO SUICIDE

(By United Press.) Chicago, March 22—Slava Shantkevitz, baritone, with the grand opera company, attempted to stab himself in the heart with a pair of manicure scissors after the curtain rose.

"Oouch!" he yelled from behind the scenes. The jab in his breast proved too painful and he fainted.

He was taken to a hospital and will be released today.

### WOULD REDUCE NAVAL PERSONNEL FORTY PER CENT

#### HOUSE NAVAL COMMITTEE REPORTS BILL PROVIDING FOR BIG REDUCTION

(By United Press.) Washington, March 22—Lines were drawn for the fight in congress over the future size of the navy today when the house naval affairs committee reported out a bill providing for a navy of 80,000 enlisted men and 3,440 officers.

The reduction proposed is from the present naval strength of 131,385 and 5,561 officers.

### THREE CRACKSMEN HOLD UP STANDARD OIL HEADQUARTERS

#### IN MINNEAPOLIS AND ESCAPE AFTER PISTOL DUEL WITH DETECTIVES

#### BIND NIGHT WATCHMAN, WHO FREES SELF AND NOTIFIES THE POLICE

(By United Press.) Minneapolis, March 22—Three cracksmen were routed today in a pistol battle with detectives at the Standard Oil headquarters.

The trio held up B. King, night watchman, bound him and threw him into a room. They started to work on the vault and succeeded in opening it. Inside they found two safes. After opening one they found it contained only papers. They then started on the second which contained over \$10,000.

In the meantime, King freed one hand, wriggled over to a desk, secured a paper knife to cut his bonds and crawled to the street summoning the police. Police arrived before the yeggs opened the other safe and they escaped after several shots.

### FORMER LEAGUE BALL PRESIDENT IS INDICTED

(By United Press.) Minneapolis, March 22—John Burmeister, former president of the Northern Baseball league, was indicted by the Hennepin county grand jury late Tuesday on information furnished by Joseph W. Bragdon charging him with grand larceny in the first degree.

Bragdon, a former Minneapolis business man, was recently released from Stillwater penitentiary, where he was held on a charge of seducing young girls. Bragdon alleges Burmeister swindled him out of \$35,000 after the two had entered into a vending machine contract in 1916.

Bragdon said he gave Burmeister the money to buy the machines which he alleges was never purchased. Burmeister is now in California.

### EGYPTIAN PRINCE ESCORTED BY PUGILIST GO TO HOLLYWOOD

(By United Press.) Chicago, March 22—Prince Ali Ibrahim, nephew of the king of Egypt and "Blink" McCloskey, his social secretary, were in Chicago today. "Blink," a pugilist, did the talking.

"His Honor, the prince, wanted to inhale 'Chi' so I escorted him. We are on our way to Hollywood. The prince will show them a few tricks out there. He is an all round athlete and gives me a tough battle once in a while."

### IRISH EXTREMISTS TRY TO REVOKE WAR TO DEFEAT FREE STATE

(By United Press.) Dublin, March 22—Guerilla warfare along the Ulster border was today considered deliberate attempts by extremists to provoke civil war and upset plans for the Irish Free State.

Reports from Belfast lay the blame for the border skirmishes upon the Sinn Feiners but it is pointed out here that Ulster extremists are equally anxious to prevent establishment of the southern government.

### OFFER RESOLUTION ON BEERS AND WINE IN WISCONSIN HOUSE

(By United Press.) Madison, Wis., March 22—A resolution to ask congress to amend the Volstead act to allow the sale of light wines and beers will be introduced at the special session of the Wisconsin legislature this afternoon, it was learned today.

Assemblyman Martin Higgins, of Milwaukee, will introduce the resolution. Governor Blaine has repeatedly said that nothing except tax measures relating to the income tax statute will be considered.

## BIG PACIFIC OPERATOR FAVORS SHIP SUBSIDY

(By United Press.)  
San Francisco, March 21.—The passing of the ship subsidy bill proposed by President Harding will take from the mud flats many of the splendid freighters now warped idly to their moorings, according to Captain Robert Dollar, veteran ship operator, and one of the most powerful factors in Oriental shipping today.

Captain Dollar recently returned from a visit to Washington, where he took part in the conference between President Harding and Chairman Lasker and the members of the \$30,000,000 shipping pool recently formed by Pacific coast shippers.

Captain Dollar, following his visit to Washington, renounced his former opposition to ship subsidy. He now believes that it is the best means at hand of maintaining the American merchant marine.

"So far as the interests of most Pacific shippers are concerned, we do not feel that a ship subsidy is imperative," said Captain Dollar. "However, it is necessary to the shipping business on the Atlantic coast."

"We have run our business on the most efficient lines, and have no complaint to make provided the government will sell Shipping Board vessels to private owners at a reasonable price. However, we believe that it would be unpatriotic to oppose the government proposition of a subsidy when such opposition would hurt the idea of building up a national merchant marine, and a naval reserve."

"Undoubtedly much of the great sea traffic of the British Empire was built up through subsidy. The plan outlined by President Harding seems eminently fair and should soon put the American flag back on the seas."

Captain Dollar's view of the situation is shared by the shipping interests of the Pacific coast generally.

## TEXAS AUTHORITIES DE-CLARE WAR ON NIGHT RIDERS

## Keys That Cheat Fire

Recently a man had lost \$1200 in liberty bonds when the maid emptied the waste basket into the furnace.

Another man lost his marriage license, two insurance policies and his copy of an important contract when a fire in his home destroyed some furniture.

Keys to safe deposit boxes would have locked those valuables away from fire.

### "LIES--ALL LIES"

SAYS W. H. CLOUD

Denies Charges Made Against Him at  
St. Cloud, Released from Jail on  
\$1,000 Bonds

#### CASE IS A MOST BIZARRE ONE

If Allegations of Cloud's Wife are  
True--Evidence Submitted to  
Grand Jury at May Term

(St. Cloud Daily Journal-Press)  
Willard H. Cloud, insurance sales-  
man, arrested in St. Cloud after his  
wife alleged he was living as the  
"head of another man's family," was  
released from jail on \$1,000 bonds  
furnished by Minneapolis attorneys.  
Evidence in the strange case—one  
of the most bizarre on record, if the  
allegations of the wife are true—will  
be submitted to the grand jury at the  
May term of the Stearns county dis-  
trict court. Cloud was arrested by  
Sheriff Schooner when Mrs. Cloud,  
coming here from Minneapolis, charged  
that her husband presided over a  
Sixth avenue residence in which lived  
Mrs. Lillian Cronin, formerly of Min-  
neapolis, and her two children, one a  
girl of 18 years. Authorities say Mrs.  
Cronin's husband is a Minneapolis  
clerk, whom she is alleged to have  
deserted.

"Lies—all lies," commented Cloud  
last night, as he perused a newspaper  
account of the charges brought by his  
wife. "There's two sides to every  
question—but I have no statement to  
make just now. I am going to fight  
this case to the last ditch."

Well-dressed, and of refined appear-  
ance, with a record of many years be-  
hind him as a successful business  
man, Cloud smiled somewhat ruefully  
a moment later as he sat pondering  
the situation.

"That's a lie that she (his wife)  
ever made any effort to search for  
me," he said. Then he stopped talk-  
ing abruptly, as if recalling his origi-  
nal statement that he "had nothing to  
say."

The inner life of the two families  
affected by the triangle of hearts  
straightened out by the law promises  
to be found more strange even than  
the superficial case when once the  
Stearns county grand jurors start  
their probe.

Cloud is charged with a statutory  
offense by his wife.

He was at one time a resident of  
Pequot, Minnesota. He moved to  
Minneapolis later, and succeeded in  
the insurance business. His friends  
state that he held several highly lu-  
crative positions while in Minneap-  
olis. He is charged with having fled  
from Minneapolis last September with  
Mrs. Cronin and her children, going  
to Winona. He has lived in St. Cloud  
since January.

#### Parent-Teachers Meeting

The Parent-Teachers' Association  
of the Whittier school held its regu-  
lar meeting March 14th.

The condition of the school room  
floors was at once taken up and it  
was decided that it was highly advis-  
able to have them cleaned that week.  
Being informed that the school board  
had no funds for such additional oper-  
ations, the association voted to use  
some of its own money for the pur-  
pose at this time.

O. J. Bouma addressed the meeting  
on the Chamber of Commerce organ-  
ization and explained the Building  
and Loan Association recently organ-  
ized.

A committee to aid in the arrange-  
ment of the 50th Anniversary cele-  
bration was appointed, the members  
being Mrs. A. C. Weber, Mrs. R. T.  
Campbell and Mrs. A. T. Fisher.

Representing the Rotary club R. T.  
Campbell brought up the Boy Scout  
movement for the purpose of ascer-  
taining the sentiment regarding its  
introduction here. The club endors-  
ed the movement.

Showing of better pictures for chil-  
dren at the theaters was advocated  
by Wm. Rodenkirchen but no special  
action was taken at this meeting.

Mr. Rodenkirchen favored the club  
with a violin solo, accompanied by  
Mrs. Rodenkirchen.

At the next meeting officers for the  
coming year will be elected, reports  
read and refreshments served.

#### MISSION

Bert Sabin has been substituting,  
carrying the mail for Harvey Drake  
while the latter was ill.

Mrs. Emma Drake entertained a  
group of ladies on Thursday after-  
noon.

Harold Summerville visited at the  
Young home with his cousin and re-  
turned to Brainerd Monday.

#### PILLAGER

The high school athletic association  
put on an athletic tournament. Joe  
O'Donovan of Pillager and Herbert An-  
derson of Rocky Point, bumped for  
the heavyweight championship. An-  
derson walloped Donovan on the jaw  
for a count of eight. In the second  
round he jabbed Donovan in the neck  
and he went down for keeps. The  
preliminaries were good. The old  
school house is being fixed up for a  
gym.

Pillager's election was a quiet af-  
fair. Sam Dower was elected presi-  
dent of the council.

Miss Bess Bailey was sick with ton-  
sillitis.

Pillager stopped the "flyer" the  
other night and eight people boarded  
it to go to Brainerd and see "Way  
Down East".

Miss Amy Satter of Brainerd is vis-  
iting her parents, Mr. and Mrs. Au-  
gust Satter.

The road to Sylvan is now open for  
autos.

### RUSSIA NEEDS HORSES, SAYS EX-CLEVELANDER

By ERNEST HAAGEN

(United Press Staff Correspondent.)  
Riga (By Mail).—Russia needs hor-  
ses as well as grain, according to Wil-  
liam Caton, son of Frank Caton, fa-  
mous trotting-horse breeder of Cleve-  
land, Ohio, who has been in Russia  
continually since 1909.

Ordinary livestock in Siberia, he  
said, has decreased 75 per cent since  
the beginning of the war and in Euro-  
pean Russia the increase has been  
much greater.

Only 4,762 thoroughbred trotters are  
left in Russia as compared with 250,  
000 which were owned there before

the war, Caton said, and of 200,000  
English thoroughbred horses which  
were owned in Russia before the war,  
there are today less than 200.

Referring to horse racing, Caton  
said: "The sport of Kings has not ex-  
isted in Russia since the beginning of  
the revolution. Today, however, trot-  
ting races have been started again in  
Moscow, Petrograd and Omsk, but in-  
stead of the pre-war 5,000 racehorses  
in Moscow, there are now but 300 and  
in Petrograd only 50. The races are  
therefore only poor substitutes of  
what Russia is accustomed to."

"Russia today has only a very few  
famous horses left. Most of the studs  
are emptied, largely by the White and  
Red armies. Probably Bob Douglas  
and General H. Willy (both American  
bred) are the only real horses left in  
all of Russia."

Speaking of the general condition  
in Russia, Caton said, that the star-  
vation would be greater this year than  
last.

"It is true," he said, "that Russia  
has received large supplies of grain  
from Siberia, but there were stocks of  
former years and now there is prac-  
tically nothing left of them."

"The Siberian peasants distrust the  
Soviets and since the confiscation of  
their grain they sow but a fractional  
part of what they sowed in former  
years—just enough to supply their in-  
dividual wants."

"Give us back private property and  
then we will work," is what the peas-  
ants say. "Otherwise reconstruction  
in Russia is impossible."

#### Freedom Based on the Bible

It is impossible to enslave, mentally  
or socially, a Bible-reading people.  
The principles of the Bible are the  
groundwork of human freedom.—Hor-  
ace Greeley.

#### Ingenious Scheme Failed.

When I was in the seventh grade at  
school, relates a correspondent of the  
Chicago Journal, there were two girls  
I thought I was in love with, but I  
could not decide which one I liked  
best. So one day I thought I would  
write each a nice love letter exactly  
the same and I would then choose the  
one who answered the most favorably.  
But when they got their letters, each  
let the other know, so as to make her  
jealous. I wrote each again, but I  
got no reply at all.

#### NOT THE ONLY ONE

There are Other Brainerd People Sim-  
ilarly Situated.

Can there be any stronger proof of-  
fered than the evidence of Brainerd  
residents? After you have read the  
following, quietly answer the question.

J. L. Bush, carpenter, 726 4th Ave.,  
N. E., Brainerd, says: "My kidneys  
were giving me some trouble and the  
pain and misery I was in was intense.  
When I laid down I was bothered  
quite a bit and could get little rest.  
My kidneys bothered me at night and  
mornings I was stiff and sore across  
the small of my back. I had a steady  
dull ache across my kidneys day and  
night. My kidneys acted frequently  
and the secretions were highly col-  
ored so I started using Doan's Kidney  
Pills. They relieved me so I could  
get back to work again, feeling as well  
as ever."

#### NEW SOLDIER CITIZENS

ALTHOUGH immigration has been greatly restricted by the law now in effect, the United States is obtaining new citizens at the rate of about 780 a month, according to data compiled by the Department of Labor. This is due to a law enacted by Congress during the war which permitted all aliens in the army and navy to become naturalized without the necessary five-years' residence, and also permitted the waiving of the first paper requirement. Estimates of the War and Navy Departments showed there were over 400,000 aliens in the army and navy.

Naturalization in the army was only getting well under way when the armistice was signed. In order to be fair with those alien enlisted men who had not yet availed themselves of the opportunity to become naturalized under the special act of Congress, the privileges of the special law were extended to all honorably discharged ex-service men for a period of one year after all American troops returned to the United States.

#### LIGHT WINES AND BEER

WE WERE very much surprised when we read in the daily papers that in the progressive city of St. Cloud, the home of Alvah Eastman, one of the strong pillars of the G. O. P. in Minnesota, the Republican county convention of Stearns county "sprung a surprise by declaring for light wines and beer by a vote of 33 to 25." Of course Alvah must have been present, for who ever heard of a Republican convention in Stearns county at which he was not one of the leading spirits? And we never knew him to indulge in a nap in the political game. As Alvah does not explain how it happened, in the Journal-Press, and Fred Schilpin gives no details in the Democratic Times, we are left "all at sea" and with much regret must confess that we fear the worst. "Pussyfoot" Johnson should be communicated with without delay.

#### MODEST MINNEAPOLIS.

THE St. Cloud Journal-Press is rather caustic in its comments upon Minneapolis politicians, as will no doubt be casually observed in the following paragraph:

"Minneapolis modestly lays claim to the offices of United States senator, governor and lieutenant governor, as a starter. Before March 31 is reached other Minneapolis men will discover that there are other good offices to be filled—attorney general, treasurer, auditor, secretary of state, judge of supreme court, clerk of supreme court and railroad and warehouse commissioner. And when Minneapolis cops the whole bunch it will have nerve enough to ask the rest of the state to elect them."

#### MUSCLE SHOALS LEASE

HENRY FORD is a good business man, and of course cannot be blamed for making contracts in his own interest. Our government is represented by a careful business man as Secretary of War, and by a Republican majority in Congress not accustomed to giving away government interests. Very probably a contract for the leasing of Muscle Shoals will be made whenever it is to the best interests of the nation to make it, and on terms satisfactory to the lessors as well as to the lessees. The American people voted against the Democratic plan of mismanaging the public business.

#### DRAWING PENSIONS ILLEGALLY

UNDER an opinion rendered by Attorney General Daugherty and transmitted to Secretary of the Interior Fall, who administers the civil service retirement act, approximately 20 per cent of the government employees in the civil service are ineligible to receive

the pension benefits of the act. Secretary Fall estimates that 80,000 employees were affected, and that of 8,000 who had retired under the act, four-fifths, or 6,400, have been drawing their pensions illegally.

#### EARNED THE REWARD

"SENATOR KELLOGG," says the Bemidji Pioneer, "was known as 'trust buster' when he served as special United States attorney in Roosevelt's day. As senator, he has used his talents in behalf of the farmers of the Northwest. What more might we ask? He has been faithful to those he represented, he is able and has secured what he has been after. It is up to the Republican state convention to say: 'Well done, thou good and faithful servant; enter thou into a second term.'"

GOV. PREUS has undoubtedly made every effort to keep out of the Senatorial fight in the coming Republican state convention. Although it is certain that "Jake's" friends will control the convention, he will not be a candidate for Senator himself, and his supporters are expected to vote for Kellogg.

THE SENATE of Virginia has passed a bill providing for a tax of one cent a gallon on all gasoline sold within the state, to take care of the interest and sinking fund on the \$12,000,000 bonds for highway improvement. The distributor is to collect the tax.

IT IS now estimated that about 60,000,000 tons of bituminous and anthracite coal will be above ground by April 1, when the nation-wide strike of miners is scheduled to begin. A strike appears almost inevitable.

SOME eastern newspapers noted for the sensational manner in which they dress up the news are now dressing up the Four-Power Treaty with words not contained therein.

SECRETARY HUGHES appears to have permanently put the "no" in Genoa.

#### RICHES OF ALASKA WHICH HARING WILL SEE NEXT SUMMER

(By United Press.)  
Washington, March 20.—When Secretary Seward paid the Russian government \$7,200,000 for Alaska fifty-six years ago, he did not dream that there would ever be a college within 100 miles of the Arctic Circle, or that it would be a wonderland of wealth.

When President Harding goes up there this summer he will land about strawberry time and such strawberries as Marion never saw to hear the natives brag. The president will see a government-built railroad and be able to take a little auto trip right up to the nose of a glacier.

The head of the college near Fairbanks is Charles E. Bunnell, former federal judge, and the campus is on a tract of land four miles from Fairbanks, on the main line of the new railroad. The college was formally established in 1917. There was under cultivation in the immediate vicinity of Fairbanks last year, according to Prof. Bunnell, a total of 1,920 acres. This land produced 100 tons of vegetables, 1000 tons of oats and hay, 1,270 bushels of oats and barley, 3,516 bushels of wheat and 392 tons of potatoes. The wheat represents the yield of 183 acres.

As a result of "redtape," Alaska lost 23.4 per cent in population in ten years when it should be growing by leaps and bounds. On this, Col. W. B. Greeley of the Forest Reserve has this to say:

"An effort is now being made to create for Alaska a local commission, or development board, which would take over the duties and authority of the various Federal executives, together with the administration of all public

resources in Alaska, working solely under the direction of the Secretary of the Interior. This proposal may well be challenged. After all, the national interests in Alaska are paramount. Alaska represents, in her marine fisheries, her enormous agricultural areas and her resources for growing meat-producing animals, one of the great food sources of the United States. In her vast forest lies a practical solution of our paper shortage."

Just what is involved is pointed out by the American Forestry association.

"There are 20,000,000 acres and over 75,000,000,000 feet of timber of a quality suitable for general consumption in the National Forests in Alaska. This is equivalent to nearly 6 per cent of all the timber in the Continental United States. Wisely handled, a paper industry can be developed in Alaska as permanent as the paper industries of Scandinavia, and capable of supplying a third of the present paper consumption of the United States."

"During the administration of the United States Forest Reserve, national forests have been open freely for the use of timber and other commercial resources under regulations of an exceedingly liberal and simple character. They are being cut today to the extent of about 45,000,000 board feet annually."

"Working steadily the Forest Service has promoted the establishment of a paper industry in Alaska, which promises to be one of its most important industrial developments. Two sales of pulp timber, aggregating 700,000,000 feet, have been made, and there are many pending applications and inquiries from responsible sources. Just as rapidly as bona fide undertakings for the building up of forest industries in the territory take form, they will receive every form of encouragement

from the Forest Service consistent with the public interest.

As to scenery there is Mount McKinley, 20,300 feet in altitude and the loftiest peak on the North American continent, but a short distance from the new railroad to Fairbanks and with its completion Mount McKinley National Park will soon be accessible. At Juneau you can hire an auto, drive eleven miles and there you are within a few hundred yards of the Mendenhall glacier and visitors may go out on the glacier.

The highway swings along the west side of Auke Lake from this glacier where there are fish, boats and bathing.

There are extensive agricultural lands, some of which are even now being made productive. One rancher cleared \$200 from one-half acre of strawberries. Fine strawberries, raspberries, cabbage, cauliflower, rhubarb, carrots, turnips, and celery are now grown, as well as a bewildering array of flowers. Sleek cattle and horses are in pasture and chickens are around the door yards.

Always Purpose in Sorrow.  
Held sorrow till its more selfish aspect passes; till it turns its religious side to you; till time and experience and faith do their work; till you feel not its gloom, but its glory; not its cross, but its crown. Do not, through any device, lose its sanctifying influence, the greatest loss the soul can meet.—J. E. W. Ware.

#### BREAKS up FEVER

A chiropractor would rather get a fever case than anything else. Why? Because it is a common thing for fevers to break up after one or two adjustments have been given.

Fever is excessive heat brought about by certain subluxations; as soon as the subluxations are adjusted and Nature can work normally again, the fever disappears.

# FORD

## Serves You

### BEST

We take great pleasure in announcing that we are now in position to offer the people of Brainerd and Crow Wing County FORD CARS, TRUCKS and TRACTORS on the same terms that the large city dealers are offering, namely, 33 1/3% down, 40% down or 50% down; 6, 8, 10 or 12 months time on the balance.

You will eventually own a Ford, why not act now? It is your fault if you struggle along without a car. Of course, your neighbor or friend may take you out occasionally, but if you want to enjoy living, enjoy your family, save doctor bills and enjoy our wonderful outdoor summer, buy a car.

Our terms are now such that it is your fault if you are Ford-less.

You profit most in owning a Ford because it serves the Best.

We can make prompt delivery—Act Now

## 5 CANDIDATES ARE ENDORSED

Convention of Laboring Men and Farmers Called for Tuesday Evening at Trades & Labor Hall

### SUPT. OF SCHOOLS NOMINATED

Fred Atwood of Cross Lake Received 46 Votes, Mrs. Hartley 20, R. D. Stitzel 8

Pursuant to a call published by a committee, a convention of laboring men and farmers was asked to meet at Trades & Labor hall on Tuesday evening. Quite a number of laboring men and ladies too were present but the representation of farmers was a minus quantity.

P. M. Everett presided and Joe Gabiou was secretary of the proceedings. The object of the meeting, as stated in the call previously published in the Dispatch, was "for laboring men and farmers to gather for the purpose of endorsing candidates for the coming primary election".

County Superintendent of Schools The convention endorsed five candidates and nominated one. The nomination occurred when the matter of county superintendent of schools was brought up. P. T. Brown addressed the conference and called attention to the importance of this office, which meant the proper education of children, the building of the very foundation of citizenship.

Mr. Gabiou read a letter from R. D. Stitzel in which the latter asked the convention to consider his candidacy for county superintendent of schools and asked endorsement of the same. S. E. Gartner, representative of Crow Wing county, placed in nomination Fred Atwood of Cross Lake. Another speaker lauded Atwood as a well to do farmer, a staunch nonpartisan leaguer and a member of the cooperative store in Brainerd who attended all meetings in spite of the long distance he had to travel.

Fred Eckholm nominated Mrs. Irma Camp Hartley. Ben Samuelson nominated R. D. Stitzel.

A ballot was then taken and the vote stood Atwood 46, Hartley 20, Stitzel 8. Mr. Atwood was declared the nominee of the convention.

#### Endorsements

The first office considered by the convention was the endorsement of a candidate for county attorney. There was but one name presented, that of Harry Fullerton, and he received the endorsement.

For sheriff, but one name was considered, that of Mayor F. E. Little. He received the endorsement. For county treasurer, the convention endorsed S. R. Adair, present incumbent, and for clerk of court, W. A. M. Johnstone, incumbent.

#### No Action on These

When the question of endorsing a county auditor came up, there was a division of sentiment. Some speakers objected to further endorsing candidates already in the field and said the convention should have nominees of its own. There was much discussion and in the end a motion to endorse the incumbent, C. W. Mahlum was lost.

For register of deeds but one name, A. G. Trommald, was brought up. Some were in favor of taking no action.

On a motion to endorse, the vote stood ayes 15, nays 29.

#### County Commissioner

For county commissioner, of the second district, endorsement, there was quite a fight. Three names were brought up, P. J. Lowey, A. A. Weidemann and Edward Crust.

One speaker raised the objection that the whole convention should not vote on a matter which concerned only the second and third wards. Such words, it was asserted, should first caucus on the matter.

One speaker said the old convention system had too much of the steam roller in its makeup.

"The question", said one speaker, "is which is the better union man, Lowey or Weidemann". Weidemann, it was asserted, having been in union labor longer, had done more for the cause than Lowey, who joined the ranks later.

On a motion to endorse Weidemann, the latter received 29 ayes and 45 nays.

A motion that the convention endorse both failed to be put to a vote.

A motion to endorse Lowey carried by 51 ayes, with no nays voting.

#### State Constabulary

A resolution was adopted expressing opposition to the establishment of a state constabulary and the same is to be sent to state senators and representatives.

"Whereas, there is a movement on foot in the state of Minnesota, to place on our statute books, a law establishing a state police or constabulary, which law, if placed in effect,

would add another heavy burden on the tax payers of this state.

"This bill is being engineered under the guise that the police system so established will be used in fighting fires, and suppressing crime, but in fact, one of the leading purposes is to place a weapon in the hands of the employers, that they will be able to wield effectively in case of labor troubles and strikes. This system of state policing has been thoroughly tested in the state of Pennsylvania, and has been conclusively proven that this state police has been used by the employers for the purpose of intimidating labor, breaking up labor meetings and maltreating the families and sympathizers of labor.

"Therefore, be it resolved, that the laboring men and women throughout this state of Minnesota earnestly appeal to their representatives in the legislature and state senate, to do all in their power to defeat the passage of this obnoxious bill."

#### To Meet With Farmers

The evident lack of any farmer representation in the convention induced one speaker to move that a committee of three of each local form a central body and meet with the farmers for the purpose of bringing the results of the meeting before the public, which motion was lost.

No motion was adopted to continue the meeting. A motion to adjourn carried without dissent.

The attendance varied, being largest at the opening. There was a continual shifting about, some walking in and others out during the proceedings.

## TAKE STAND ON BONUS QUESTION

Gunard Erickson Post No. 10 of the World War Veterans adopted this resolution at a recent meeting:

"That we, the World War Veterans of Gunard Erickson Post No. 10 of Brainerd, Minnesota, do believe that the original five fold plan is the honest and just form on which to base the claims and that with the proposed sales tax should be adopted.

"It is further resolved: 'That we, the World War Veterans of Gunard Erickson Post No. 10 of Brainerd, Minn., go on record as opposed to any certificate plan whatsoever and that a copy of this resolution be sent to our representative and senators at Washington and one to the Brainerd Daily Dispatch for publication'."

#### WORLD WAR VETERANS

Will Hold Regular Meeting Tonight in Club Rooms in New Park Building

Gunard Erickson Post No. 10, World War Veterans, will hold their regular meeting this evening at 7:30 o'clock in their club rooms over the New Park theatre. Much business will be transacted and discussions for the welfare of the club will come up.

Through the courtesy of Manager Force the Veterans will attend the New Park to see Norma Talmadge in "The Wonderful Thing".

There will also be a boxing exhibition staged for the members of the organization. All Vets should attend this important and interesting meeting.

## KARHUNSAARI MAY WRESTLE HERE SOON

L. C. Curtiss of Bemidji and Henry Karhunsari, the ferocious Finn, may soon wrestle in Brainerd. A letter has been received from Henry said Manager Taylor, stating he will send his forfeit to Smracker & Taylor for a wrestling match with Curtiss at Brainerd on April 17.

Curtiss promises to show his best wares on that occasion and will do "his dundee" to get the decision over Henry. He claims he can throw Karhunsari.

Henry will be in town two days before the match to get acclimated.

## PAVED HIGHWAY CLOSER TO BRAINERD

Contracts Let at Little Falls for Stretches Little Falls to Belle Prairie and from Royalton

### BABCOCK WAS AT LITTLE FALLS

McCree, Moos & Co. Successful Bidders at \$1.99 Per Square Yard, Nine Bidders in Field

Walter M. Murphy, County Highway Engineer, has returned from Little Falls where he was present at the letting of Contracts 27-22 and 27-01. The first named covers the ten mile strip from Royalton and Little Falls, and the second from Little to Belle Prairie.

There were nine bidders, all Minnesota men except two who came from North Dakota and Iowa. The lowest bidder was the McCree, Moos company at \$1.99 per square yard. Ostrand & Hallett of Crosby were second low with a bid of \$2.03 1/2 per square yard. The specifications call for a re-inforced concrete slab of 7 1/2 inches thick per square yard.

Mike Barrett of Crookston was awarded the contract for grading at 25c per cubic yard. Wilkins & Pettijohn of Park Rapids bid 27c and Ostrand & Hallett bid 26c.

Monolithic culverts were awarded to A. B. Peterson of Little Falls at \$22.50 per cubic yard, he to furnish everything.

Commissioner C. M. Babcock, Chief Engineer John Mullen, Construction Engineer O. L. Kipp and Division Engineer George C. Scale were present at the meeting. A saving of practically 10 per cent was effected by the re-advertising of bids.

This action of the Morrison county commissioners insures a cement paved highway headed for Brainerd. The total contracts let amounted to \$349,000 in round figures.

## STATE ROAD FORCES START 1922 UPKEEP

Highway Department Authorizes Spring Work to Dry Roads and Resume Patrol Operations

### PREPARE FOR SPRING BREAK-UP

Patrolmen Under Orders to Serve All Highway Users as If They Were Direct Employers

Orders toward early resumption of daily dragging, mending and other work on trunk highways—the so-called Babcock roads—went out this week from St. Paul offices of the state highway department to maintenance superintendents in all districts.

Special spring break-up operations were authorized. Instructions were given to open ditches and otherwise provide free drainage, also to remove snow melting snow and ice from shaded cuts. Efforts must be made, highway officials said, to dry the roads in the shortest possible time.

Preliminary work well advanced, the big army of trunk route patrolmen—one for each 5-mile section—will go back on jobs. Equipped with teams, graders, drags and other necessary equipment, the patrolmen will put in their entire time again this season mending and smoothing their sections.

Patrol and maintenance operations on the trunk system last year not only spread early benefits under the Babcock Plan to every part of the state but were generally credited with a big share of the noticeable improvement. The organization of this force of more than 1,000 men, nearly all living on or near their road sections, in less than 60 days last season was rated one of the remarkable accomplishments under the new plan. Some changes have been effected in the maintenance personnel, according to highway officials, and greater efficiency is expected this year.

Patrolmen have orders to serve all highway users as if they were direct employers. People meeting mishaps or trouble on the trunk routes may call on the patrolmen for reasonable assistance which must be given without charge, according to the highway bulletin.

## HEIR TO \$180,000; DOESN'T GIVE A HANG

(By United Press.) San Francisco, March 21.—Vallimar Gilbert, aged 16, is about to receive \$180,000 and doesn't give a hang.

"What's the use of me worrying over that \$180,000 when I don't have the cash yet," he said discussing the inheritance which has been awarded him in New York from the estate of Jay Moncrief.

"I'm not through school yet. I've got lots to do. Besides, there seems to be a lot of you folks ready to do my worryin' for me."

Gilbert is a big, husky youth, who was adopted by E. A. Crape, a hard-working marine engineer, when a mere child in Los Angeles, after the death of his parents. Crape said he had no knowledge until a few days ago that "they boy stood in the way of a fortune."

Vallimar's claim on the Moncrief estate comes through the distribution of the \$180,000 to his mother, long deceased. The money was awarded Vallimar by a New York court in deciding several complicated points of law.

The lad has more interest in wire- less than in money.

"I like my wireless set 'bout the best of anything," he said. "I made it myself. Naw, I ain't goin' to buy one of them fancy sets when I get the money. They're no good. I wouldn't get one no matter how much money I had. The kind you makes yourself is best. Oh, maybe I'll buy a new au-

"THUNDERCLAP" WITH MARY CARR  
THE MOTION PICTURE "OVER THE HILLS" WILLIAM FOX SPECIAL PRODUCTION

"They're Off!"  
The shout goes up from thousands of throats and then—hush, almost a painful silence.  
As the all-absorbing moving picture—a riot of color and fast-flying heels—rounds the first turn, field glasses and binoculars are adjusted and mental notes taken on the respective positions of the fliers.  
Down the back stretch they fly, now this one and now that one setting the pace. Into the back turn they go, each rider and horse seemingly with the understanding that the supreme effort awaits them just ahead. Around the back turn they come, heading into the home stretch for the final spurt. But never a word from that vast throng.  
Every eye is glued to that fast approaching group of horse flesh and gay color. Every heart pulsates with the rapidity of a trip-hammer. As

they near the wire, there is audible the muffled utterance, "Come on boy" or the groan of "Not a chance."  
Like a flash from the sun through a rift in the clouds, they are under the wire and then, only then, does the vast throng give vent to its pent-up feelings. With a mighty roar the crowd cuts loose, bedlam continuing as the prancing winner returns to the stand to again weigh in. Then, a rush to the betting ring and—another race.  
"But the big race, the handicap, takes place in "Thunderclap," the remarkable William Fox special running at the Lyceum theatre tonight and Thursday. It is one of those gripping, stirring, exciting, nerve-racking incidents which has all the thrills of a genuine Derby Day—all but one—the expense. The gay throng is there, flags are flying and

the very atmosphere tingles with excitement.  
In the parade by the judges' stand, the keen-eyed motion picture device is subconsciously drawn to entry No. 6. There is something exceptionally attractive about the arch-necked, sleek-coated high stepper. Then, too, the confident demeanor of the gaily satined jockey. No. 6 is "Thunderclap," about whom the wonderful and fascinating William Fox masterpiece has been written.  
And yet, even in addition to this remarkable story of the sport of kings there is a pleasing story replete with excitement and thrills. There is a battle between youth and intrigue, a thrilling scene depicting the blowing up of the bridge and a love story certain to "get beneath the skin." In a word, "Thunderclap" is a remarkable composite of thrills, smiles and satisfaction.

cause Southern California is worked out as far as locations go. In this district one has much greater choice in the selection of locations.  
Bosworth believes that the "breaking up" of the Hollywood colony would be mere foolishness.  
"The reason the Hollywood colony has received such unfavorable publicity is because of the prominence of the film stars who are for the majority centered there, and because of a certain small undesirable element which has recently been in the limelight.  
"This undesirable element is not confined to the film colony. There is the same sort of element in society. Hence society scandals. But in most cases the people concerned are not important enough to warrant any notoriety.  
"But, as in all other walks of life, this element is small in the film colony, and you may be assured that the big men of the film world are doing their best to uproot it and put it out of business.  
"The majority of film folk are decent, ordinary people, who lead quiet lives. Many of them are married and have their homes and kiddies. And this class, which is the large majority, is more concerned about the home-fires than any other class of people in American life—because they find it harder to obtain real retirement.  
"Take that into consideration when you discuss Hollywood and the thousands of people in the motion picture

# AMUSEMENTS

## "Secret of Her Success"

Norma Talmadge, who has pleased millions of people in her motion picture productions, has proved a personal disappointment to the girls of Centerville, Iowa.  
Not but what she was just as beautiful and just as delightful as they expected she would be, and her cordiality and personality were much

closing scenes of her latest production "The Wonderful Thing" for Associated First National Pictures, which will be the attraction at the New Park tonight and Thursday, they decided that the time was propitious for finding out the secret of success in the "movies."  
That is where Miss Talmadge proved disappointing. She was honestly pleased to meet the girls, and told them so; but when they mentioned the object of their errand, she was really sorry.  
"Oh, I am so sorry," she said, "for I don't know."  
No words were necessary to show how disappointed her visitors were. Their faces revealed it, and some of the young women looked as if they didn't believe it. So Miss Talmadge continued:  
"Really, I have tried awfully hard to find out, because I have been asked that so many times. I haven't been able to discover it, though. Now you take my sister Constance and myself. We lived in Brooklyn and rather near the Vitagraph studios. A lot of the girls were going there and spending their time in the yard waiting for the rare occasions when one of the directors would come out looking for 'extras'. I was just as wild as any of them to get into pictures but I couldn't see why it was going to hurt anything to let the men who did the hiring know that I wanted to.  
"So I waited my chance and walked boldly into a director and told him I wanted to work for him. He asked me a whole lot of questions and when he got through he gave me a card and told me to report to him the next morning. That is how I started.

ture industry is rotten," said Bosworth. "Well, the motion picture industry knows the public is rotten. "It is a disagreeable truth that the reason that so many films are being made with the sex appeal is because the public packs the theatres when such films are shown.  
"As long as this is true, the public is going to get that kind of films.  
"Personally, I believe that the public is just beginning to adopt a thumbs down attitude on this type of film. It is a good thing. It is much better to have the public finally make up its mind to do this, than to have it done by some outside influence.  
"We need better films. They are the great source of pleasure and enjoyment, of clean amusement and education in America today. Their future will be along the same lines as the development of great literature or drama.  
Bosworth recently left Hollywood, and removed to the new Pacific studios film colony at San Mateo, fifteen miles from San Francisco.  
"I left Hollywood essentially be-
